

# SANTOSH ADHIKARI

Junior Front-End Developer | React Developer | Computer Science Graduate

London, UK | [adhikarisantos17@gmail.com](mailto:adhikarisantos17@gmail.com) | [github.com/AlphaMind03](https://github.com/AlphaMind03)

LinkedIn: [add link](#) | Portfolio: [add link](#)

Motivated Computer Science graduate with hands-on experience building modern web, mobile, full-stack, and data-focused software projects. Skilled in React, React Native, JavaScript, Node.js, Express.js, Python, SQL, APIs, Firebase, MongoDB, Tailwind CSS, and GitHub. Focused on starting as a Front-End Developer and growing into full-stack, data, and AI development. Hospitality and customer service experience gives me strong communication, teamwork, pressure-handling, and real business understanding.

## TECHNICAL SKILLS

|             |                                                                                                  |
|-------------|--------------------------------------------------------------------------------------------------|
| Front-End   | HTML, CSS, JavaScript, React, Tailwind CSS, Framer Motion, Responsive Design, UI/UX              |
| Mobile      | React Native, Expo, Mobile UI, Local Storage, App State Management                               |
| Back-End    | Node.js, Express.js, REST APIs, Firebase, MongoDB                                                |
| Data / AI   | Python, pandas, scikit-learn, Machine Learning, Data Analysis                                    |
| Tools       | Git, GitHub, VS Code, Postman, Vercel, Firebase, Google Colab                                    |
| Soft Skills | Problem Solving, Communication, Teamwork, Time Management, Customer Understanding, Fast Learning |

## SELECTED PROJECTS

### StockMate Inventory App

[React Native](#) | [Expo](#) | [AsyncStorage](#) | [Context API](#)

Built a mobile inventory management app for restaurants, kitchens, cafes, and small shops to track products, expiry dates, low stock, waste, activity logs, search, category filters, and local data saving.

### Mini Jarvis Personal Assistant App

[React Native](#) | [Node.js](#) | [Express.js](#) | [APIs](#)

Created a personal assistant app with chatbot-style input for expenses, notes, health logs, tasks, reminders, daily summaries, and backend API connection.

### CityPulse Hybrid DApp

[React](#) | [Node.js](#) | [Express.js](#) | [Algorand](#)

Developed a hybrid city information app with alerts, events, saved cities, backend API logic, and blockchain transaction integration.

### AI Economic Prediction Project

[Python](#) | [pandas](#) | [scikit-learn](#) | [Machine Learning](#)

Completed a final-year AI/data project using inflation, unemployment, bank rate, and FTSE-related data; performed preparation, model training, evaluation, and result explanation.

### ADK Stickers Website

[React](#) | [Tailwind CSS](#) | [Framer Motion](#) | [Lucide-react](#)

Built a modern responsive business landing page for vinyl wraps and custom skins with animated sections, service cards, and conversion-focused layout.

## WORK EXPERIENCE

### Hospitality & Customer Service Experience

London, UK | *Kitchen Assistant, Cook, Sushi Assistant, Front-of-House, Customer Service*

- Worked in fast-paced hospitality environments while completing a Computer Science degree.
- Communicated clearly with customers, colleagues, and managers during busy service periods.
- Managed time effectively, stayed organised under pressure, and supported team productivity.
- Followed workplace standards, hygiene procedures, and operational responsibilities carefully.
- Developed customer understanding that helps me design practical, user-focused software.

## EDUCATION

### BSc (Hons) Computer Science

University of East London | Completed / Graduation: 2026

Relevant study areas: web development, mobile app development, software engineering, databases, programming, artificial intelligence, machine learning, and data analysis. Languages: English, Nepali, Hindi. Availability: Flexible for suitable opportunities.
